A. Covered Services

1. Acupuncture Treatment of Injury or Illness

Covered Acupuncture Services are those within the scope of acupuncture care that are pre-authorized by Landmark, and are supportive and Medically Necessary for the treatment of neuromusculoskeletal pain resulting from an injury or illness, or for the treatment of uncomplicated asthma (that which is not effected by another condition or disease), allergies, post-operative or chemotherapy nausea and vomiting, nausea of pregnancy, post-operative (including dental) pain, fibromyalgia, headaches and low-back pain. Services include the following:

- Acupuncture
- Electro-acupuncture
- Moxibustion
- Cupping
- Acupressure, only when acupuncture is contraindicated

2. Initial Visit

Pre-authorization is not required for a Member’s initial visit, which consists of an examination by the Participating Acupuncturist and may be followed by treatment. However, any subsequent treatments and/or services require pre-authorization to be obtained from Landmark by the Participating Acupuncturist.

3. Emergency Services

Emergency Services are covered for the sudden and unexpected onset of an acute illness, extreme neuromusculoskeletal pain or accidental injury to the nervous, musculoskeletal and/or skeletal body systems, that, in the reasonable judgment of the Member, requires immediate care, the delay of which could decrease the likelihood of maximum recovery, and for which the Member seeks to secure acupuncture services immediately after the onset, or as soon thereafter as practicable. Emergency Services do not require

pre-authorization; however, they are subject to Landmark's determination that the Member would reasonably have considered that Emergency Services were required, and that services provided were Medically Necessary and appropriate.

Emergency Services rendered by a Non-Participating Acupuncturist are covered only when the acupuncturist rendering services can show that the services were for a neuromusculoskeletal condition and/or illness and were provided to reduce the severity of the condition including pain until a Participating Acupuncturist could safely assume treatment. Similarly, Emergency Services received outside of Landmark's Service Area will be covered only when the Non-Participating Acupuncturist rendering services can show that the services were for a neuromusculoskeletal condition and/or illness and were provided to reduce the severity of the condition including pain until a Participating Acupuncturist could safely assume treatment. Under the Landmark Plan, emergency care must be transferred to a Participating Acupuncturist as soon as such transfer would not create an unreasonable risk to the Member's health.

B. Second Opinions and Referrals

1. Second opinions

On occasion, a Participating Acupuncturist may require a second opinion, which is for consultation only, from another acupuncturist. Landmark does not require an authorization for any second opinion. Second opinions initiated by your Participating Acupuncturist will not count against your maximum annual visits and will not require a Member office visit co-payment. Second opinions initiated by Members will count against the maximum annual visits and will require a Member office visit co-payment.

2. Referrals to non-acupuncture practitioners

For referrals to non-acupuncture practitioners, Members or enrollees of full-service plans or HMOs will be referred to the plan or HMO practitioner network for non-neuromusculoskeletal conditions, conditions not improving with acupuncture care, and other such services that cannot be provided by another Participating Acupuncturist.
