## HOW CAN SEEING A DPO DENTIST SAVE YOU MONEY?

When you visit one of the more than 11,000 DPO network offices in California\*, you receive the highest level of benefits with the lowest out-of-pocket expenses. DPO dentists agree to provide treatment to DPO patients at moderate fees, which means your share of the bill (copayments and other fees you pay) will likely be lower. When you make your appointment, double check that your dentist is part of the DPO network.

The DPO plan also gives you the freedom to visit a dentist outside the network and still receive benefits.

\*Or if you visit one of the 62,000 DPO dental offices nationwide if you are a DPO USA enrollee.
