Features and benefits

FlexAppeal Enhanced

When you have healthy teeth and gums, you look and feel better. What you may not know is that by taking care of your teeth, you're having a positive impact on your overall health as well. To help you enjoy the benefits of healthy, attractive teeth and gums, UnitedHealthcare offers FlexAppeal Enhanced.

FlexAppeal Enhanced is offered to you as part of your UnitedHealthcare dental plan. FlexAppeal Enhanced offers three major benefits: additional cleanings or gum (periodontal) treatments, white fillings for back teeth and dental implants.

Receive extra cleanings and gum treatments.

Based on your dentist's recommendation, FlexAppeal Enhanced allows you to receive four teeth cleanings or gum treatments each year, or a combination of the two. Gum disease is a serious condition affecting a large portion of the U.S. population. Regular cleanings and gum treatments can help to slow or even reverse the effects of this disease.

Choose white fillings for a natural look.

People today are becoming more conscious of the appearance of their teeth. Silver amalgam has been used to fill cavities for many years, but dentists now offer a more attractive option: white fillings. With FlexAppeal Enhanced, you can choose white fillings for your back teeth, allowing you to enjoy a more natural look without paying more.

Missing teeth? Dental implants are an excellent choice.

It's unpleasant and unhealthy to have missing teeth. But traditional bridgework and dentures can be uncomfortable and awkward. For many, dental implants are a better solution. Dental implants are replacement teeth with the same look and feel as your natural teeth. Because implants are placed in your jaw bone, they feel sturdy and secure. And because they have a natural look, they restore your smile and your confidence. With FlexAppeal Enhanced, dental implants are covered if you need to replace teeth due to injury or disease.

Questions? We're here to help.

FlexAppeal Enhanced is just one more benefit you enjoy with a dental plan from UnitedHealthcare. With the added value it provides, FlexAppeal Enhanced encourages better oral health, which is connected to better health overall.
