

**Who's At Risk**

- The Social Security Administration estimates that just over 1 in 4 of today's 20 year-olds will become disabled before reaching age 67.<sup>1</sup>
- Most disabilities are not work-related, and therefore not covered by workers' compensation.<sup>2</sup>

**Advantages of Long Term Disability Benefits**

- Your employer pays the premium.
- No medical questions to answer. You are guaranteed coverage.<sup>3</sup>
- Benefits paid for disabilities that leave you unable to work or only able to work part-time.

**Savings Aren't Always Enough**

Dave is an office manager for an accounting firm. On weekends, he does a lot of work on his house and yard. If he has a serious accident at home and is unable to work, he doesn't want his savings to dwindle or his family to suffer financially while he recuperates.
